

Wyandot County Retail

Being a rural area, the local retail centers are a mix of local, family-owned businesses and retail chains. The small family-owned stores, many of which have been in operation for 2 – 3 generations, provide a unique shopping experience that complements that found in chain retail outlets. The downtown shopping districts of Upper Sandusky and Carey have many buildings that date from the mid-19th century with their original facades and tin ceilings. Upper Sandusky and Carey have recently completed downtown streetscape projects that include installment of underground utility lines and the modernization of the sidewalks and streetlights.
