

Healthcare in Wyandot County

Wyandot County is served by a wide variety of quality health care professionals providing a broad range of services to its residents.

[Wyandot Memorial Hospital](#)

WMH is a locally owned, non-profit modern full-service medical facility located in Upper Sandusky. It offers a 24-hour emergency department, a heliport for emergency transfers, laboratory services, pharmacy, physical therapy, occupational health and many other specialty services.

WMH also has a Wellness Center, disease prevention programs as well as medical equipment and supplies.

[Carey Medical Center](#)

The Carey Medical Center, part of the Blanchard Valley Health System, provides a wide range of medical care for the entire family. Carey native, Dr. Troy Puckett along with Alyson Kinley, CNP and Desiree Hauenstein, PA-C are committed to helping patients maintain a healthy lifestyle. Dr. Robert Puckett will join the staff in 2019 following his residency in the new 14,000 square foot Carey Medical Center building located near the U.S. Route 23 Carey exit. The new medical center will have a specialty clinic, and services for cardiology, obstetrics and gynecology, orthopedics, and more.

Complementing the county's modern medical facilities are private-practice physicians, dentists, physical therapists, audiologists, chiropractors, optometrists, home care providers, hospice care providers and fitness centers, all of whom are dedicated to the health and wellbeing of Wyandot County.

The aging population of Wyandot County is served by two area nursing homes, [The Wyandot County Skilled Nursing and Rehabilitation Center](#) and [Fairhaven Community](#). The [Inn at Westbrook](#) is an assisted living facility located in Upper Sandusky.
